

How to use the CIP Map Viewer Web Application

Click on the Search button  and enter the address to zoom into the desired address. You can use your mouse wheel or the +/- buttons on the map to navigate to the area of interest. Click any projects on the map or list to see more information about the project.

Additional Tools

From left to right the tools are  Home,  Legend,  Layer List,  Basemap Gallery.

The Tools perform the following actions in the web application:

Home: Displays to the City Limits.

Legend: Displays map symbols.

Layer List: Displays the operational layers that can be toggled on or off to display various features.

Basemap Gallery: Contains the selectable basemaps (i.e. background image of the map).
