

Shopping Cart Retrieval

To help curb the amount of shopping carts left on City streets, please use the following information to report the shopping carts. Businesses with shopping carts are required to submit a Shopping Cart Containment Plan to the City's Business License Division. Most retailers have contracted with retrieval companies to check for their carts and respond to complaints of rogue carts in the City of Oceanside.

Please contact the Retrieval Service of the shopping cart you see abandoned and report the location for pick-up.

Abandoned & Unmarked Shopping Carts

If you see a shopping cart that has no business logos or names, please contact Customer Care to report the location by either calling 760-435-4500 or by emailing CustomerCare@oceansideca.org.
